

Second table anchor

Supplement to the bimanual carton print kit

Print at 100% / Actual Size. Disable Fit to Page.

Tag 36h11 / ID 20 / black square: 60 x 60 mm

ID 20 - FIXED TABLE

Keep the full 7.5 mm white border on all four sides.

Mount flat on the table, apart from tag 1 and clear of the arm paths.

Both table tags must be visible for initial camera registration.

At least one must stay visible during folding; keep the camera fixed.

Measure the tag poses in the same frame as the robot bases.

Do not copy the simulated marker coordinates without measuring.

This line must measure exactly 100 mm.

Also measure the black square after printing. Keep unused copies out of view.

Experimental simulation setup; this sheet does not establish robot calibration.
